

Develop Reading Comprehension in 3 Easy Steps

Series Features

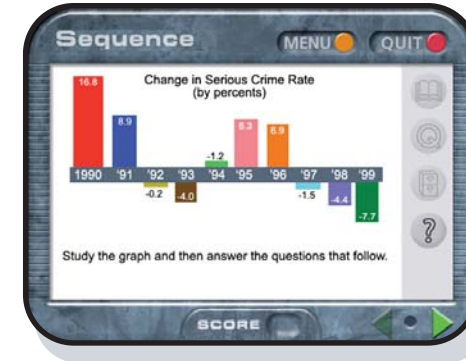

- Variety of content area passages as well as reading graphs, charts and tables, maps, and schedules
- New design appeals to all learners
- Easy navigation through program
- Updated management features help teacher to individualize prescription for student or class
- Spoken glossaries help improve comprehension
- Additional web-based activities provide real world application of skills
- FREE reproducible worksheets for follow up practice
- No installation or maintenance fees

1 Quick diagnostic tests assess each comprehension skill separately to accommodate students' varying levels of ability in each.

2 Interactive reading comprehension lessons are organized by skill, allowing students to focus on mastery of each. Nonfiction articles develop reading strategies and reinforce content areas.

3 Continuous evaluation, tutorial remediation or advancement keep students performing at their peak while increasing their comprehension skills.

Diagnostic tests automatically assess students in the crucial comprehension areas

Details • Inference • Main Idea • Sequence • Vocabulary • Fact & Opinion (Diascriptive® Reading II only)

Diascriptive® Reading

For all your students, including Developmental, ESL, Special Education,
Title I, ABE and GED Prep!

"The most powerful interventions that have been identified for reading disabilities to date consist of a combination of instruction in phonemic awareness and direct and integrated instruction in text reading and comprehension." -NICHHD findings

Combining both assessment and remediation, Diascriptive Reading is especially effective in developing and improving the comprehension skills needed to read content-area textbooks as well as job-related technical manuals and raise test scores.

"I am convinced that the Diascriptive Reading program plays a large part in the high success rate of students meeting or exceeding the targeted exit requirements in reading..." Dr. Sandra Linn, Associate Professor, Centre City Community College, San Diego, CA

Available in individual modules or as a complete series, Diascriptive Reading has been used successfully in a variety of educational programs including middle schools, high schools, adult and community education, colleges, correctional institutions, workplace readiness and GED preparation programs.

NEW! Diascriptive® Reading Online
